

Customer Journey Map

Date	01 July 2026
Team ID	
Project Name	HDI Predictor using Machine Learning and Flask
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	Accesses the web portal, inputs socioeconomic indicators, or uploads CSV file.	Triggers the prediction engine, monitors progress.	Views radar/bar charts, identifies bottlenecks, makes policy decisions.
Touchpoint <i>What part of the service do they interact with?</i>	Input interface	ML Backend Engine	Analytics Dashboard
Customer Thought <i>What is the customer thinking?</i>	"Will this accurately predict my region's HDI?"	"The analysis is running; looking for fast and reliable outputs."	"These insights make complex data actionable for policy-making."
Customer Feeling <i>What is the customer feeling?</i>	Cautious but hopeful	Anticipatory	Empowered and informed

Process Ownership <i>Who is in the lead on this?</i>	• Frontend/UI Team	• Data Science Team	• Data Analytics/UX Design
Opportunities <i>How can we improve this stage?</i>	• Streamline data upload, provide tooltips for inputs. • •	• Add real-time status bars and progress notifications. • •	• Implement PDF export, interactive filters, and collaborative sharing. • •
