

Project Demo Planning

Date	09 July 2026
Team ID	
Project Name	HDI Predictor using Machine Learning and Flask
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Overview of the HDI Predictor platform	5	Team Lead
2	Prediction Engine Demo	Demonstrate the Flask/Scikit-learn integration	5	Backend Developer
3	User Interface Walkthrough	Show form inputs and auto-fill functionality	5	UI Developer
4	Batch Prediction Demo	Showcase CSV upload and processing	5	Data Engineer
5	Visualization Showcase	Demonstrate Chart.js dynamic charts	5	Frontend Developer
6	Q&A Session	Address questions about architecture and future scope	5	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Present the objective of democratizing socioeconomic forecasting.
2	Solution Overview	Discuss the Flask backend, Scikit-learn model, and three-tier architecture.
3	Live Feature Demonstration	Walk through the Single Prediction, Batch CSV upload, and visual analytics.
4	Q&A Session	Engage with the audience on technical implementation and roadmap.
